# 2023 Security Cooperation Miscellany

Below are SC related items listed in the 2023 NDAA (not exhaustive) that may be of interest to Security Cooperation practitioners. Users may consult the full text of the Authorization online at <https://www.congress.gov/bill/117th-congress/house-bill/7776/text>. The Section citations are included for your reference:

In Section 1260 of the NDAA, Congress breaks new ground by directing the Department to enhance the Major Defense Partnership with India by expanding cooperation on emerging technologies, readiness, and logistics. The directive includes requirements with timelines for assessments, briefings, and reports to Congress.

The Special Defense Acquisition Fund (SDAF) authority is increased from \$2.5B to \$3.5B. This is important to SC practitioners, because the fund allows the DOD to procure defense articles in anticipation of future foreign government needs and, thus, reduces customer wait times and—important and timely—reduces the need for drawdowns or diversions from U.S. stocks.

Congressional interest in and directives regarding Russia's invasion of Ukraine continues. In addition to funding and policy guidance, re: U.S. assistance to Ukraine, (see Ukraine Security Assistance Initiative) Congress has authorized \$800M to help replenish stocks of military equipment and supplies for partners and allies that have sent such equipment and supplies to help Ukraine resist Russia's aggression. These new authorizations include multiple new reporting and oversight requirements (see Sections 1241 through 1247).

**Strategic Competitors (Russia, China):** Congress demands a report analyzing the impact of Russia's war against Ukraine on China's diplomatic, economic, military and propaganda plans and objectives with respect to Taiwan. This is important to SC practitioners because Congress further directs that appropriate sections of the report be shared with allies and partners including Taiwan, other Indo-PACOM countries, and partners in Europe.

**Strategic Competitors (Russia, China):** Section 1076 requires a report to Congress on the strategic effects of current or planned new naval facilities or agreements for using naval facilities between African countries and Russian and China, and their potential impacts on DOD interests and operations in and around Africa.

**China/Taiwan related:** The NDAA and the Consolidated Appropriations Act both emphasize countering Chinese influence, enhancing the defense relationship between the U.S. and Taiwan, and strengthening Taiwan's ability to deter and, if necessary, defeat aggression by the People's Republic of China (PRC). The DOD and State are directed to coordinate use of their complementary resources to that end. DOD also owes Congress an initial and thereafter an annual report on steps taken in terms of U.S. sales and grant assistance to advance Taiwan's defense.

**China/Taiwan related:** Section 5504 direct the expansion of a comprehensive training plan to enhance Taiwan's military interoperability with U.S. forces and authorizes the use of International Military Education and Training funds for Taiwan. Section 5505 provides additional drawdown authority funds specifically for Taiwan and directs DOD in consultation with State, to seek to utilize the SDAF to expedite delivery of defense articles to Taiwan.

**China/Taiwan related:** Section 5506 directs State and Defense, in conjunction with the Director of National Intelligence to develop and implement a multi-year plan for acquisitions and exercises to address gaps and shortfalls in Taiwan's defense capabilities. Section 5507 directs a series of steps to ensure that FMS sales to Taiwan shall be prioritized and fast-tracked.

Concerns regarding Iranian missiles and unmanned aerial systems prompted Congress to demand a strategy for U.S. CENTCOM to seek cooperation with allies and partners in the region to establish an integrated air and missile defense architecture to protect the partners' people, infrastructure, and territory from cruise and ballistic missiles, manned and unmanned aircraft, and rocket attacks from Iran/groups linked to Iran.

The NDAA requires three new Pilot Programs that directly involve SC:

- Defense Operational Resilience International Cooperation—to support engagement with military forces of partner countries on defense-related environmental and operational energy issues (Section 1212).
- Developing Young Civilian Defense Leaders in the Indo-Pacific Region—to enhance bilateral cooperation (see Section 1261).
- Sharing Cyber Capabilities and Related Information with Foreign Operational Partners—to meet operational imperatives (Section 1551).

- DSCA, the applicable CCMD, and/or the applicable MilDep agrees to fund the student/liaison.

**Example:**

A lesser-developed Latin America country has a star candidate for critical U.S. training. However, the country cannot afford the tuition and per diem expenses for the student to receive advanced U.S. training. The country has been very supportive of peacekeeping and humanitarian assistance in Haiti and the provision of access to exercising U.S. forces.

# 321, Training with Friendly Foreign Countries: Payment of Training and Exercise Expenses

<b>Description:</b>	This section of Chapter 16 of 10 U.S.C. repeals, re-codifies, and replaces “1203, Training of General Purpose Forces of the United States Armed forces with Military and other Security Forces of Friendly Foreign Countries” and “Developing Country Combined Exercise Program (DCCEP)” with Section 321, P.L. 114-328, Section 1244(a) & (c).

<b>Authorization:</b>	Section 321, Chap. 16, 10 U.S.C. 2010 implemented by P.L. 114-328, Section 1244, FY17 NDAA, 23 Dec 16
<b>Appropriation:</b>	DOD O&M
<b>Guidance:</b>	Allows U.S. armed forces, under the jurisdiction of the Secretary of Defense, to train with military forces or other security forces of a friendly foreign country if the Secretary determines that it is in the national security interest to do so. Costs allowed includes deployment expenses, the incremental expenses of a friendly foreign force of a developing country as a direct result of participating; and, small-scale construction (not to exceed \$1.5M) that is directly related to the effective accomplish of the training exercise. For more information about this program, see SAMM, Appendix 8.

<b>Key Players:</b>	Country team (SCO), CCMD, and Joint Staff
<b>Execution:</b>	New guidance is not yet available, current procedures are as follows: <ul style="list-style-type: none"><li>◇ SCO determines partner nation participation (or full participation) in a combined exercise is not possible unless U.S. funding assistance is provided.</li><li>◇ GCC determines participation is necessary to achieve the objective of the exercise.</li><li>◇ Recommended to the Joint Staff that DOD funding be made available for supporting the partner country exercise participation.</li></ul>
<b>Example:</b>	The partner country is invited by the GCC to participate in a scheduled combined exercise with other countries, and the SCO determines the country is unable to transport their forces to the exercise site nor has the fuel for their vehicles. The SCO communicates this shortfall to the CCMD for U.S. logistics assistance.

# 322, Special Operations Forces: Training with Friendly Foreign Forces

<b>Description:</b>	Deployment of U.S. special operations forces (SOF) for the primary purposes of training the U.S. SOF elements involved. U.S. Special Operations Command refers to these interactions with foreign partner nation counterparts as “Joint Combined Exchange Training (JCET).”

<b>Appropriation:</b>	DOD and USSOCOM O&M
<b>Guidance:</b>	The primary purpose of the training under this section shall be to train the U.S. SOF under the combatant command. While these training events are not security assistance, many foreign partner militaries are eager to host JCETs. Note that any training benefits that accrue to the host nations forces during these events must be incidental to the purpose which is to train U.S. SOF. None of the funding made available may be used for any training, equipment, or other assistance for the members of a unit of a foreign security force if the SecDef has credible information that the unit has committed a gross violation of human rights.

<b>Restrictions:</b>	Significant oversight of JCETs is required by OSD and Congress.
<b>Key Players:</b>	Country, country team (SCO), CCMD, CCMD SOF component, USSOCOM, and Joint Staff
<b>Execution:</b>	Same as for Combined Exercises except the SOF unit is under USSOCOM operational control with advisory control to the CCMD
<b>Example:</b>	SOF units routinely deploy to developing countries for language training and cultural immersion not normally available. SOF secondary role in training would prove invaluable to a developing country special operations organization and skills.

Additionally, the Secretary of Defense can provide this support to operations in which the United States is not participating if the Secretary of Defense and State jointly certify to Congress that the operation is in U.S. national security interests and the appropriate report is filed. <b>Key Players:</b>	USEUCOM, USDC, USDP, ASD (ISA), DSCA, and applicable SDO/DATT

**Execution:****Example:**

- The Ukraine Security Assistance Initiative falls under this category. EDI has included separate funding for Ukraine each year since the inception of the program. The FY 2021 EDI budget requests \$250 million in security assistance to Ukraine in the forms of “intelligence support, personnel training, equipment and logistics support, supplies, and other services.”
- EDI also provides partial funding to Operation Atlantic Resolve.

# Excess Defense Articles (EDA)

**Description:** Transfer of defense articles determined by uniformed services as no longer needed by the USG, either on a grant basis or by FMS sale

**Purpose:**

- Transfers excess defense equipment to foreign governments or international organizations.
- Typically used for modernization of partner forces.
- Excess defense articles provided to partner nation at a reduced price (based on the condition of the equipment) or as a grant.
- Partner nations pay for packing, crating, handling, and transportation (PCH&T), as well as refurbishment if applicable—EDA is “as is, where is.”

**Authorization:**

- Section 21, AECA [22 U.S.C. 2761] by FMS
- Section 516, FAA [22 U.S.C. 2321j] by grant transfer

**Appropriation:** None, only an authority.

**Guidance:**

- Secretaries of military departments declare items excess to their MilDepts causing them to be available for transfer to other USG agencies, local governments, or foreign governments eligible to receive them either by FMS or grant transfer.
  - ◊ Major end items are normally retained by the MilDep for final deposition.
  - ◊ Minor end items and parts are normally retained by DLA for final disposition.
- SecState/PM/RSAT coordinates and provides DoS approval to DOD/DSCA for any required congressional notification prior to transfer.
- In each case, the recipient must be determined eligible to receive the applicable technology.
- Once approved for transfer, a joint visual inspection (JVI) of the EDA is strongly encouraged [SAMM, C11.5.5] prior to transfer.
- NDAA 2021 (P.L. 116-283 Section 1236 stipulates that the Ukraine Navy should be prioritized for EDA to the extent practicable and that the required resource plan for Ukraine security assistance (jointly submitted by the SecState and SecDef) must outline all planned provision of EDA to Ukraine.
- Legislative proposals, including H.R.6470/S.3488 and H.R.6742/S.3652 and H.R.6367/S.3407, would prioritize Ukraine over other countries and expedite Congressional review of transfers to Ukraine.
- For more information about this program, see SAMM, Appendix 8.

**Countries Eligible:**

- Countries determined eligible for FMS are normally eligible for FMS EDA.
- Countries eligible for grant EDA are identified and notified to Congress via a joint DSCA/State FOUO letter to Congress each fiscal year.
- Prior to grant transfer, the recipient country must enter into a Sec. 505, FAA, agreement (a DoS diplomatic process) which includes the following stipulations:
  - ◊ Limits use to government officers, employees, and agents.
  - ◊ Does not permit unauthorized transfers.
  - ◊ Does not permit use for purposes other than those for which furnished.
  - ◊ Maintains required security.
  - ◊ Will permit observation and furnish information.
  - ◊ Returns equipment to the U.S. when no longer needed.
- A 505 agreement is normally in place for all grant transfers including those using the pseudo LOA process.
- Per the 2023 NDAA P.L. 117-263, 23 Dec 2022, it is the sense of the U.S. Congress that up to two Island Class former USCG cutters should be transferred to Ecuador. See Section 5548, p. 2226, for details.

**Value of Program:**

Variable

**Restrictions:**

- If by FMS, it is generally priced based on usability ranging from 5 to 50 percent of its origin acquisition value.
- If by grant, the concept is “as is-where is.”
  - ◊ Articles are drawn from existing DOD stocks.
  - ◊ No DOD procurement funds are to be expended for the transfer.
  - ◊ The transfer will not have adverse impact on U.S. military readiness.
  - ◊ They must be determined to have no adverse effect on opportunities for any sale by U.S. industry.
- Excess construction, emergency, or firefighting equipment or vehicles are not eligible for the EDA sales or grant transfer programs.
- Total current value of grant EDA transfers in one fiscal year is not to exceed \$500M.
- Grant transfer of ships require specific legislation for each case [10 U.S.C. 7307].

**Key Players:**

Military department, DLA, country team (SCO), CCMD, DSCA, State/PM/RSAT, and Commerce Dept

**Execution:**

- Country identifies a requirement for possible EDA to the SCO.

- SCO forwards the request with any endorsement.
  - ◊ The SCO must ensure the country understands EDA generally means there is no promise of future support of any sort, and any modification or transportation expense is to be reimbursed to the USG.
- CCMD endorsement can assist to allocate in the case of competing requirements.
- MilDeps determine if EDA exists.
- DSCA coordinates with DoS and Commerce to determine eligibility and allocation among the requirements.
- Congressional notification completed by DSCA for grant EDA transfer of significant military equipment or any transfer exceeding \$7M.
  - ◊ FMS EDA notifications are IAW Section 36(b), AECA, with the FMS LOA process used for the transfer by sale.
- USDP/DSCA approves the transfer for implementation by the applicable MilDep or DOD agency.

**Example:**

- Countries purchase weapons systems (or parts) no longer needed by the USG but said equipment is to remain in the purchasing country inventory.
- The US transferred a 378-foot Coast Guard Cutter to Vietnam in 2017, and then another shipment of the same class in 2020. Despite the “as is, where is” dictum normally associated with EDA, the transfer, refurbishment, upgrades, and training required to support this transfer were all funded by various grant security assistance programs.

# Foreign Disaster Relief (FDR)

<b>Description:</b>	The international humanitarian system calls for the delivery of life-saving aid in the most effective manner, which may, at times, justify the involvement of foreign military assets. As part of its responsibilities as lead federal coordinator of FDR, U.S. Agency for International Development (USAID) may request unique capabilities from DOD based on validated humanitarian needs. This typically comes in the form of logistics support, transportation, and technical expertise (e.g., air traffic control).
<b>Purpose:</b>	Support for USG FDR is led by USAID's Office for Foreign Disaster Assistance (OFDA). The U.S. will continue to lead the world in humanitarian assistance. Even as we expect others to share responsibility, the U.S. will continue to catalyze international responses to man-made and natural disasters and provide our expertise and capabilities to those in need. Alleviating human suffering is an important expression of humanitarian concern and a tradition of the American people.
<b>Authorization:</b>	PL 117-328: Overseas Humanitarian, Disaster, and Civic Aid
<b>Appropriation:</b>	State Foreign Operations and Related Programs Act for 2023 lists \$4,395,000,000 as available until expended.
<b>Guidance:</b>	<ul style="list-style-type: none"><li>• DODD 5100.46, 6 Jul 12, as amended by Change 1, 28 July 2017</li><li>• Assistance is only provided when requested by both the PN and the COM and is validated by USAID/OFDA to address the immediate humanitarian needs of foreign civilian disaster victims</li><li>• DOD FDR may be provided on a non-reimbursable basis (OHDACA) or on a reimbursable basis</li><li>• Requires SecDef approval</li></ul>

<b>Execution:</b>	<ul style="list-style-type: none"><li>• PN (Head of State or MOFA) requests U.S. disaster assistance, generally to the COM.</li><li>• USAID validates humanitarian need and in the USG interest to support; COM issues a disaster declaration.</li><li>• USAID-Washington DC validates humanitarian disaster requirements and, as appropriate, begins providing assistance. If DOD assistance is required, USAID or State Executive Secretary will send a formal request to the DOD Executive</li></ul>

Secretary, after socializing with ASD SO/LIC.

- ASD SO/LIC, in coordination with CJCS, DOD Office of General Council, DOD Comptroller, and DSCA, makes a recommendation to SecDef regarding military support.
- If approved, SecDef will notify GCC of approved mission pursuant to authorities and available funding. DOD support will be based on validated OFDA humanitarian requirements. GCC will be required provide timely cost accounting to OSD Comptroller, ASD SO-LIC and DSCA.

**Example:**

- At the request of the Indonesian government following a major earthquake and validated by USAID, DOD provided logistics support (C-130J airlift and aerial port services).
- DOD provided technical support/expertise to assist the Kingdom of Thailand with the search and rescue of a youth soccer team trapped in a cave.

# Foreign Military Financing (FMF)

<b>Key Players:</b>	Country team/SCO, GCC, DOD/USDP/DSCA, DoS/PM, DoS/DFA, and OMB

**Execution:**

- Though FMF is the AECA and S/FOAA-legislated term, the community often uses the terms FMF, FMF credit, and FMS credit.
- DOS/PM sends annual guidance cable with “suggested” amounts by country to all Country Teams. then informed by that cable each.
- Country team/SCO provides recommended funding levels through both the diplomatic and military chains-of-command two years in advance.
- DSCA coordinates within DOD/USDP for recommendation to DoS.
- DoS/DFA coordinates within DoS for justifications and entry into the upcoming budget year congressional budget justification (CBJ).
- After numerous congressional hearings for final appropriation, Title 22 funds in amounts confirmed by the Office of Management and Budget are transferred into by-country FMF accounts held at, and thereafter managed (with State approval) by, DSCA.

**Example:**

- F-16 follow-on support for Poland or modification and inspection of H-1 helos and engines originally provided as grant EDA to Hungary.
- Israeli and Egyptian purchase of U.S.-origin defense articles and services.

# FMF Regional Funds

<b>Description:</b>	State PM/SA FMF managers notify portions of their FMF annual allocations to Congress as Regional Funds in order to respond to changes in regional assistance priorities during the budgeted year of execution.
<b>Purpose:</b>	<ul style="list-style-type: none"><li>• To provide flexibility and responsiveness in implementing parts of the FMF program. It is now becoming more common for some FMF monies to be provided based upon geographic regions. For example; two regional funds of note that have been created over the past couple of years:<ul style="list-style-type: none"><li>◇ FMF European Security Assistance Fund (ESAF)</li><li>◇ Africa Regional Counterterrorism FMF program (ARCT FMF)</li></ul></li></ul>
<b>Authorization:</b>	Section 23 AECA [22 U.S.C. 2763] & Presidential Policy Directive (PPD 23)
<b>Appropriation:</b>	Variable
<b>Guidance:</b>	<p>Also variable depending on regional issues; however, there are several common goals/end states desired:</p> <ul style="list-style-type: none"><li>◇ Enhance deployment capabilities of partner nations</li><li>◇ Strengthen partner nation territorial stability</li><li>◇ Combat hybrid terrorist threats</li></ul> <p>The monies in in these regional programs are accessed by their various countries through a competitive proposal driven process that tends to reward better-considered projects with strong partner buy-in.</p>
<b>Countries Eligible:</b>	Each regional FMF program has a different group of countries that are eligible; for instance, SCOs in Burkina Faso, Burundi, Cameroon, Chad, Djibouti, Ethiopia, Kenya, Mali, Mauritania, Niger, Nigeria, Senegal, Tanzania, and Uganda can submit proposals for grants from the ARCT FMF. Countries in Europe and Eurasia that have received bilateral FMF within the five fiscal years prior to the year of submission are eligible for ESAF.
<b>Value of Program:</b>	
<b>Restrictions:</b>	These regional FMFs monies are usually reserved for their respective developing countries that receive very little in the way of country specific FMF and these partner nations will need to maintain these capabilities on their own after the initial assistance.

<b>Execution:</b>	Variable; procedures are usually promulgated by the respective DOD Geographic Commands and corresponding State Regional Bureaus

# Foreign Military Sales (FMS)

- Description:** Government-to-government sale of defense articles and services using the Letter of Offer and Acceptance (LOA) agreement process
- Purpose:** Under the general supervision of DoS and subject to foreign disclosure decisions, DOD is authorized to sell defense articles and services normally to ministries of defense of other countries
- Authorization:**
- Section 21, AECA [22 U.S.C. 2761], authorizes the President to sell defense articles and services from DOD and USCG inventory to any eligible country or international organization, to also include excess defense articles (EDA).

  - The previous requirement to use firm-fixed-prices for FMS contracts (Section 830 of the 2017 NDAA) is Repealed. Firm-fixed-price contracts are no longer required. [per Section 888, NDAA 2021, P.L. 116-283 Jan 01 2021]
- Appropriation:** None, only an authority using country cash, FMF or DOD SC program funding
- Guidance:**
- Per the NDAA 2023 P.L. 117-263 23, Dec 2022, the Secretary of State and the Secretary of Defense shall prioritize and expedite the processing of requests from Taiwan under the Foreign Military Sales program and may not delay the processing of requests for bundling purposes.
  - FMS sales are DOD’s response to a country’s Letter of Request (LOR), all subject to the technology transfer decision process, approval by DoS, and advance notification by DSCA to Congress for approval
    - ◊ Proposed FMS LOAs are generated by the DOD implementing agency (IA) which will either provide from inventory or enter into contract once approved by the USG and the purchasing country.
    - ◊ FMS LOAs have standard terms and conditions for the sale.
    - ◊ Purchasing country approval will also include any required funding deter-

mined necessary for implementation.

- Pseudo LOA sales are DOD's response to a USG Memorandum of Request (MOR) to be funded by the requesting agency, also subject to technology transfer decisions, concurrence of DoS, and advance notification by USDP and USDC to Congress.
  - ◇ The proposed pseudo LOA is generated by the DOD implementing agency which will provide from inventory or enter into contract once approved by the USG requesting agency.
  - ◇ The pseudo LOA is accepted and funded by the requesting USG agency. Delivery is to the requesting USG agency for subsequent transfer to the benefiting country.
  - ◇ Benefiting country must have a current "505 agreement" in place with the USG.

**Countries Eligible:**

- Those determined eligible by IAW Sec. 3, AECA:
  - ◇ Presidential determination (PD) that sales to a country or international organization will strengthen U.S. security and promote world peace

  - ◇ Recipient agrees to limit use of articles/services to the purpose for which they are furnished,
  - ◇ Recipient agrees to maintain substantially the same degree of security for the article or service as that provided by the USG
  - ◇ Recipient is otherwise eligible.

**Restrictions:**

FMS transfer of ships require specific legislation for each case [10 U.S.C. 7307]

**Key Players:**

Recipient or benefiting country, country team (to include SCO), CCMD, implementing USG agency, DOD/DSCA/DTSA, and DoS/PM/RSAT,

**Execution:**

- Submission of LOR by partner country for FMS LOA, or MOR by USG agency for pseudo-LOA
- Technology transfer decision coordinated by DTSA
- DoS/PM/RSAT coordination
- Notification to Congress as required
- LOA/pseudo-LOA acceptance with funding
- DOD issuance from inventory or letting of contract with U.S. industry
- Transportation to and acceptance by purchasing country
- DSCA manages end-use monitoring program (Golden Sentry) for FMS IAW Sec. 40A, AECA, with implementing agencies, CCMDs, and SCOs.

**Example:**

FMS- (or country cash-) funded logistics and training support for Singapore  
DCS-purchased F-15s, FMS FMF-funded purchase of F-35s for Israel.

# Global Peace Operations Initiative (GPOI)

**Description:** G-8 countries (other donors have later joined) initiative beginning in 2005 to train and equip 75,000 international PKO troops within five years (achieved)

**Purpose:**

- Have a qualified, ready-to-go, mil-civ PKO force from non-G-8 countries
- Having exceeded the initial force goal, Phase II (FYs2010-14) emphasis is now sustainment and continued training to include self-sustainment and indigenous training. The goal is 318K troops from 61 countries
- NSC has endorsed continuing GPOI after FY 2014 with capacity building being the priority.
- Establish and support the Center of Excellence for Stability Police Units (COESPU) in Vicenza IT

**Authorization:** A component of FAA-authorized PKO

**Appropriation:**

- Allocated from appropriated PKO account. Budget of \$1.3B from FYs 2005-2020
- FY 2020 earmark \$71M, P.L. 116-94, 20 Dec 2019
- FY 2021 P.L. 116-260, 27 Dec 2020.
- Department of State Foreign Operations and Related Programs, H.R. 4373 requested \$71M for GPOI for FY 2022, but at press time, the bill had not passed and State was funding operations under a continuing resolution.

**Guidance:**

- All GPOI program activities and funding must be approved by the GPOI Coordinating Committee (GCC) co-chaired by DoS/PM and DOD/USDP.
- Any PKO funding of GPOI is to be notified to Congress prior to obligation.
- GPOI Implementation Guide—DoS/DOD annual document available at GPOI-eResource@state.gov using USG-only SharePoint website.

**Countries Eligible:** Mostly from AFRICOM, but all CCMDs are participating

**Value of Program:** About \$100M annually

**Restrictions:** No support for training or operations that include child soldiers

**Key Players:** Same as for PKO

**Execution:** Same as for PKO, IAW SAMM, C15.1.4.8, if via pseudo LOA

**Example:** GPOI was launched in 2005, as the U.S. contribution to the G8 Action Plan for Expanding Global Capability for Peace Support Operations and is managed by the DoS's Bureau of Political-Military Affairs. GPOI is focused on strengthening

the effectiveness of United Nations and African Union peace operations. Since FY 2005, the GPOI program implemented nearly \$1.3 billion in peacekeeping operations (PKO) funds with 55 current partner countries around the world. Program resources are applied to accomplish the following objectives: build self-sufficient peace operations training capacity in partner countries; support partner countries' development and employment of critical enabling capabilities; enhance partner country operational readiness and sustainment capabilities; strengthen partner country rapid deployment capabilities; expand the role of women and enhance gender integration; and build UN and regional organization capabilities.

# Humanitarian and Civic Assistance (HCA)

- Description:** Providing operational readiness training to U.S. armed forces in conjunction with an authorized military operation, exercise, or deployment for training. The by-product of the training is humanitarian in nature for partner nation civilians. Typically, basic health, veterinary, or engineering projects. Global manager: Joint Staff J-5; Oversight: ASD SO/LIC (SHA). NOTE: This is NOT the same humanitarian and civic assistance program as described in CJCSI 7401.01F/10 U.S.C. 166a for Combatant Commanders Initiative Fund (CCIF) or for USSOCOM “deminimus” projects.
- Purpose:** Promote, as determined by the Secretary of Defense or the Secretary of the Military Department:
- ◇ Security and foreign policy interests of the United States
  - ◇ Security and foreign policy interests of the country in which the activities are to be performed
  - ◇ Specific operational readiness skills of the Service members who participate in HCA activities
- Authorization:** 10 U.S.C. 401
- Appropriation:** O&M provided to the combatant command from their combatant command support agent (applicable military department) as noted in DODD 5100.03, “Support of the Headquarters of Combatant and Subordinate Unified Commands,” Enclosure 3.
- Guidance:** DODI 2205.02, “Humanitarian and Civic Assistance (HCA) Activities”, 22 May 17, per the Consolidated Appropriations Act of 2021 (P.L. 116-220) section 8011. Certain U.S. Army medical services in Hawaii and transportation there may, in some circumstances, be made available to civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Marshall Islands, Palau, and Guam.
- Value of Program:** Average annual global HCA expenditure is \$5M-\$8M.
- Restrictions:**
- Not provided directly or indirectly to any individual, group, or organization engaged in military or paramilitary activity. HCA is not for building PN military capacity/capabilities
  - Expenses not authorized to be paid with HCA funds include costs associated with the military operation or exercise (e.g., transportation; billeting; personnel expenses; fuel; repair of equipment). These costs are covered by funds designated for the operation or exercise. HCA funds cannot pay salaries and per diem of U.S. or PN participants.
  - Authorized expenses include direct costs of consumable materials, supplies, and services reasonably necessary to provide the HCA activity.

**Key Players:**

ODC/SCO; U.S. Chief of Mission/DCM; USAID; Combatant Command (and Component) staff; Military Departments (Services); Joint Staff; State Department (Main State); DSCA (OHASIS support); ASD SO/LIC (SHA)

**Execution:**

- See DODI 2205.02. Enclosure 3
- Some combatant commands/components may have additional AOR-specific SOPs.
- Restricted to rudimentary construction and/or repair activities and basic health and veterinary services. Do not drastically exceed the standards of local care or PN capacity to maintain facilities/equipment
- Project narratives should clearly identify the specific operational readiness skills being trained via the HCA activity. Look to the UJTL/Service/Unit task lists for objectives.
- All projects must be entered into the OHASIS database.
- All projects must be coordinated with USAID and have approval from both the PN and U.S. COM/DCM. No exceptions.
- Projects estimated to cost \$15K or less are “Command-approved” or “Min-cost” projects. These are approved at the combatant command. All other requirements still apply.
- Projects estimated to cost more than \$15K are forwarded from the combatant command to the Joint Staff for additional staffing and approval. Approval may take an additional 4-5 weeks. Incomplete, poorly prepared/reviewed narratives returned for correction.
- 30-day After Action Reports are required to be completed in OHASIS.

# Humanitarian Assistance (HA)

<b>Description:</b>	The DOD conducts steady-state HA to relieve or reduce endemic conditions such as human suffering, disease, hunger, and privation particularly in regions where humanitarian needs may pose major challenges to stability, prosperity, and respect for universal human values. HA activities may also bolster a PN's capacity to reduce the risk of, prepare for, or respond to humanitarian disasters, thereby reducing reliance on foreign disaster relief.
<b>Purpose:</b>	HA activities provide a valuable resource for Geographic Combatant Commands (GCC) to support DOD HA program goals; theater campaign plan objectives, including security cooperation; and U.S. interests. Steady-state HA projects are collaborative DOD engagements with PN government authorities to relieve or reduce human suffering, disease, hunger, or privation. HA projects are commonly developed jointly with PN ministerial-level authorities and include activities such as the construction, training, and equipment to address health services, education, and disaster preparedness requirements.
<b>Authorization:</b>	10 U.S.C. 2561, 10 U.S.C. 401, 10 U.S.C. 402, 10 U.S.C. 404, 10 U.S.C. 407, and 10 U.S.C. 2557
<b>Appropriation:</b>	Multiple sources, including the Asia Pacific Regional Initiative (APRI); however, the primary source is the Overseas Humanitarian, Disaster, and Civic Aid (OHDACA) appropriation.
<b>Appropriation:</b>	Per Consolidated Appropriations Act 2023, P.L. 117-328, 29 Dec 2022, \$170,000,000 is available until 30 Sep, 2024.
<b>Guidance:</b>	<ul style="list-style-type: none"><li>• Policy Guidance for DOD Humanitarian Assistance Programs, SecDef, Washington, D.C., 101458Z Aug 16</li><li>• SAMM Chapter 12</li></ul>
<b>Countries Eligible:</b>	As determined by the SecDef
<b>Value of Program:</b>	\$170,000,000 until 30 Sep, 2024.
<b>Restrictions:</b>	<ul style="list-style-type: none"><li>• Must benefit the civilian population on an objective assessment of humanitarian needs—not on ethnic, racial, gender, or religious considerations</li><li>• May supplement or complement, but not duplicate or replace, the efforts of other USG agencies that have primary responsibility for providing foreign assistance</li><li>• Shall address basic humanitarian needs, including (1) disaster preparedness; (2) health-related projects and activities; (3) primary education support; and (4) basic infrastructure</li><li>• Shall not benefit foreign militaries or paramilitary groups unless the ultimate beneficiary is the civilian populace and the military/paramilitary group has an official</li></ul>

role in providing humanitarian services directly to the public

**Key Players:**

- May not be used for reconstruction and long-term development  
Partner nations, COM, SCO, U.S. Agency for International Development, OSD/SO-LIC), DSCA, and GCCs

**Execution:**

- DOD HA projects will be coordinated with appropriate partner USG agencies and PN ministries as well as applicable intergovernmental organizations and non-governmental organizations. Coordination serves to 1) identify PN gaps, 2) design projects to address those gaps, 3) synchronize and integrate efforts, 4) improve efficiency, 5) identify opportunities for cooperation on projects, and 5) promote long-term project sustainability.
- HA projects involving NGOs or non-military PN entities should be closely coordinated with the USG agency that works most closely with such entities. GCCs are also encouraged to discuss disaster preparedness projects with the regionally and GCC-based representatives from USAID's Office of Foreign Disaster Assistance (OFDA).
- DOD country team representatives will seek coordination on project nominations from the USAID Mission Director or his/her designee prior to submission of the nomination to the Chief of Mission (or designee) for coordination.

**Example:**

The SCO identifies a medical clinic in need of renovation, confirms that the school is government property, and submits a project request via OHASIS to the CCMD. Once submitted by the CCMD as a priority to DSCA, DSCA places the project into oversight review, coordinating the project through Legal and OSD if necessary. Once coordination is complete, DSCA approves the project in OHASIS, and the CCMD may then fund the project for execution.

Certain countries, typically new recipients of IMET of countries with problematic human rights records may be listed by the Department of State Political Military Affairs Bureau Office of Security Assistance as eligible for only E-IMET courses. Additionally, some countries may be required by State PM/SA to have a unique percentage their IMET funding to be spent only for E-IMET courses.
<b>Purpose:</b>	DSCA designates certain USG and U.S. military courses, such as E-IMET, when they meet the criterion for training and education primarily focused on the following: <ul style="list-style-type: none"><li>◇ Contributing to responsible defense resource management.</li><li>◇ Fostering greater respect for the rule of law and its application to civilian control of the military.</li><li>◇ Contributing to cooperation between the military and law enforcement personnel with respect to counternarcotics law enforcement efforts.</li><li>◇ Improving military justice systems and procedures in accordance with internationally recognized human rights.</li></ul>
<b>Authorization:</b>	Sections 541—543, FAA [22 U.S.C. 2347]
<b>Appropriation:</b>	From the annual IMET appropriations (E-IMET is not a separate fund or program, it is merely a subset of courses available to foreign partners for the above listed military training and education purposes).
<b>Guidance:</b>	<ul style="list-style-type: none"><li>• The Department of State cable (ALDAC 14 STATE 119096) states current DoS policy requiring all partner countries using IMET funding to spend at least 10 percent of their allocation for E-IMET-coded courses and for countries with problematic human rights records (identified in the ALDAC) to spend at least 10 percent of their allocation on courses emphasizing human rights, rule of law, and civilian control of the military (for problem countries, a total of 20 percent).</li><li>• For military and related civilian personnel with eligible civilians to also include personnel from ministries other than the ministry of defense and include legislators and individuals not members of the foreign government (NGOs).</li><li>• Courses are nominated by the DOD training community to DSCA to be listed as E-IMET.</li></ul>
<b>Countries Eligible:</b>	Same as IMET (see ALDAC 14 STATE 119096 for the list of problematic countries or contact PMSecurityAssistance@state.gov with questions)
<b>Value of Program:</b>	Variable as funded from IMET allocations

**Restrictions:** Same as IMET

**Key Players:** Same as IMET

**Execution:** Same as IMET

**Example:** Same as IMET with emphasis on countries with problematic records on civil liberties and on countries recently re-entering eligibility from past USG-imposed restrictions. For all countries, 10 percent of their allocation must go to E-IMET-coded courses. For certain countries specified in annual State PM/SA guidance, an additional 10 percent must be used for HR, rule of law, and civilian control of the military focused courses. For still other countries, the State Department (often under Congressional pressure) will require that all of that partners IMET be spent ONLY on E-IMET-coded courses.

For example, Sri Lanka had been ineligible for IMET for some years due to Congressional concerns over governmental treatment of ethnic minorities during Sri Lanka's civil war. When the State Department resumed IMET funding for Sri Lanka by policy, the State would approve only E-IMET courses for Sri Lankan students funded by IMET.

- Conducted using a lease agreement with a payment schedule using country cash in U.S. dollars.
- The cost of the lease will include any depreciation experienced by the USG during the lease; however, may be waived if any of the following applies:

# Traditional Combatant Commander's Activities (TCA)

<b>Description:</b>	CCMD activities to contact and interact with foreign militaries to ensure functional military-to-military relationships necessary to fulfill CCMD responsibilities
<b>Purpose:</b>	Title 10 United States Code §164 describes the responsibilities and authorities of a CCMD but does not explicitly authorize a Combatant Command conduct military-to-military (M2M) contacts. A CCMD executes TCA pursuant to their inherent authority to interact with the militaries of foreign nations within his/her area of responsibility (AOR). The purpose of a TCA must reasonably relate to a CCMD's requirement to understand and ability to collaborate with foreign militaries in his/her AOR to further DOD mission execution.
<b>Authorization:</b>	10 U.S.C. 164
<b>Appropriation:</b>	There is not a separate appropriation for TCA. TCA is a CCMD decision to use funds provided to the CCMD to accomplish its assigned responsibilities and mission.
<b>Guidance:</b>	While TCA is a type of security cooperation activity, TCAs are conducted for the primary purpose of furthering DOD mission execution and do not provide a means to directly build foreign partner capacity. If the primary purpose of a partner engagement is to build a partner's capacity, a different security cooperation authority besides TCA must be relied upon.
<b>Countries Eligible:</b>	Those identified by the respective CCMD
<b>Value of Program:</b>	TCA is not a separate program but a CCMD decision to use funds provided to the CCMD to accomplish its assigned responsibilities and mission.
<b>Restrictions:</b>	TCA does not provide an authority to pay for a foreign partner's travel or participation expenses. A different security cooperation authority must be identified to fund a foreign partner's travel expenses (such as 10 U.S.C. 312). TCA does not provide an authority to transfer supplies, equipment, or other assistance to a partner.
<b>Examples:</b>	<ul style="list-style-type: none"><li>• A TCA may be described as a meeting, conference, seminar or workshop. The title used to describe a TCA engagement does not provide any greater leeway to broaden or expand the limited purpose or function of TCA. Calling a TCA a seminar, workshop, or conference would not allow the CCMD to train a partner. Common types TCA objectives are as follows:</li><li>• Key Leader Engagements: Senior officer level bi-lateral or multilateral meetings to establish or maintain professional relationships and to gain or maintain cooperation for shared objectives and goals.</li><li>• Assessments: A CCMD's requirement to gather data or information regarding conditions on the ground and/or the partner's capabilities to inform future DOD operations or missions assigned to the GCC. These assessments normally last a</li></ul>

week or less. Assessments are usually conducted by a team populated with expertise tailored to the questions that need to be answered and the types of missions anticipated. Assessments do not provide training to foreign partners.

- Subject Matter Expert Exchanges (SMEEs): A CCMD's effort to inform foreign partner how DOD forces conduct operations and also understand how another military force operates in the context of the specific terrain they occupy, or execution a type of military function. SMMEs are a bi-lateral exchange of information and do not provide training to foreign partners.
- Interoperability (safety and familiarization) Meeting: A CCMD activity conducted for the narrow purpose of preparing the U.S. armed forces and our partner forces to conduct a near term or reasonably foreseeably combined operation. The purpose of such a meeting is to ensure that U.S. armed forces can successfully and safely operate in close proximity with a partner's military.
